Brady Carter made a motion to approve the budget revision of funds for the FY ending June 30, 2017 Minersville Town budget. Jared Woolf seconded the motion; all voted in favor, the motion passed.

Codi Lofland would like to apply for a building permit on the property at 283 South 100 East. They will be placing a manufactured home with a basement on the property. She has been working with Kevin Carter to make sure they have all the setbacks right because there have been some problems locating the Minersville Irrigation line that runs through the property. Blue stakes have marked the lines and with the easements that need to be met she believes that where she has decided to put the home on the property they will leave plenty of room for any repairs on the line. There will be no impact fees associated with this new home because there was already a home on that lot that burnt down years ago and all the connections are there. Kevin Carter explained that there will need to be some modifications on the sewer line when hooking into the new home because the other home there was just a trailer. Codi understands and will make sure the contractor works with Kevin so that they are connected correctly.
